

WHAT IS MIPS PRO?

MIPSpro® is a qualified CMS MIPS registry and QCDR, but it offers so much more. Our focus is on helping you drive value-based care, so not only does our solution help you navigate complicated Medicare requirements and help you maximize your MIPS incentives, we ultimately want to help you improve patient care.

WHAT SETS US APART?

- We've partnered with technology companies/specialty societies to create the most robust MIPS platform.
- Our cutting-edge features provide you with the latest in value-based care.
- Submission validation and our expert, US-based support team enable you to report with confidence.

Access over 200 Quality measures and all CQMs/eCQMs

Allows you to choose measures more appropriate for your specialty and practice, which leads to better scoring and less workflow interruptions.

Track projected CMS calculations of Cost (Healthmonix MIPS Cost Analytics®)

Understand how CMS is deriving Cost (TPCC, MSPB, and episode measures) and make necessary changes to improve your score.

Confidently integrate your technology with MIPSpro

We work with any EHR, practice management system or revenue cycle management program, using advanced code mapping.

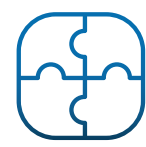

Gain real-time access to patient, provider and measure dashboards

Enables targeted changes instantly, to workflows or measure calculations, that can greatly impact your overall MIPS performance.

Drill into individual patients, providers and MIPS measures

Empowers you to attack gaps in care by identifying outlier providers, underserved patient populations and incorrect measure workflows.

Maximize your score by leveraging easy to navigate submission tools

Choose group or individual reporting at submission and pick your best measures to submit to achieve your best possible score.

Want to maximize the ability to drive your MIPS score and patient outcomes?

Ask about customized data filtering and actionable insights available through MIPSpro Analytics.

ABOUT HEALTHMONIX

Healthmonix is a healthcare analytics company focused on helping healthcare organizations drive value-based care solutions. As a CMS Qualified Registry since 2009, Healthmonix's industry leading software has assisted over 52,000 providers in reporting their quality measures, all while adding more revenue to their bottom-line.
