DRIVE EASIER MIPS REPORTING & HIGHER SCORES WITH MIPSRO AND ADVANCEDMD

Healthmonix and AdvancedMD have worked together to make MIPS reporting easier, reducing the administrative burden on your organization. Leveraging MIPS templates in AdvancedMD and Healthmonix’s CMS Qualified MIPS Registry, MIPSpro, your practice will gain access to a wider set of reportable measures and gaps in care tools to drive score improvement and higher Medicare reimbursements. Healthmonix and AdvancedMD are better together.

MIPS is harder than ever,

yet incentives are at an all time high if you can maximize performance. The performance threshold remains at 75 points just to avoid the penalty. Quality measures continue to be removed or topped out, making it imperative to have a solution that will optimize your score. MIPSpro users achieve a MIPS Quality score 10.73% higher than the national average.

Access over 200 Quality measures and all CQMs/eCQMs

Allows you to choose measures more appropriate for your specialty and practice, which leads to better scoring and less workflow interruptions.

Drill into individual patients, providers and MIPS measures

Empowers you to attack gaps in care by identifying outlier providers, underserved patient populations and incorrect measure workflows.

Gain real-time access to patient, provider and measure dashboards

Enables targeted changes instantly, to workflows or measure calculations, that can greatly impact your overall MIPS performance.

Live MIPS experts who support you through reporting, submission and targeted reviews.

Sales Professionals

Solution matchmakers striving to ease client pain points.

Technical Support

Data gurus ensuring seamless data integrations.

Designated Account Manager (100+ Eligible Clinicians)

Trusted advocates supporting the unique needs of large groups with complex data.

Customer Support

Product evangelists and MIPS experts guiding clients through reporting requirements and score optimization.
